

**Mid-State
Regional Emergency Medical
Advisory Committee**

Policy Statement

#11-02

**TRAUMA
Medical Control**

**Mid-State EMS Procedure Guidelines for the Patients meeting
NYS Trauma Criteria**

Purpose:

To ensure Patients meeting the NYS Trauma Criteria are transported to the appropriate hospital. Resource will connect Midstate EMS Providers with the Trauma Center for all Patients meeting NYS Trauma Criteria.

Definitions:

NYS Trauma Criteria updated 7/11

Patients meeting the NYS Trauma Criteria by either mechanism or physical findings should be transported to a trauma Center.

EMS will transport patients to the closest hospital in the following circumstances:

- Cardiac Arrest
- Unmanageable airway
- Under the direction of Medical Control
