

Students are required to obtain the uniform for Faxton St. Luke's Healthcare Paramedic Program. The uniform consists of:

- Black or Dark Navy BDU/Uniform Style EMS Pants
- Light Blue Uniform Dress Shirt
 - Program patch on the left sleeve
 - Patch for current EMS certification level on the right sleeve
 - Last name embroidered on the right chest
- Black shoe/boots capable of taking a polish
- Black leather or nylon belt

The uniform shall be worn during all class sessions (including virtual instruction), the preceptorship ride experience, and clinical rotations unless specifically noted by the instructors. Students arriving for classes or rotations without the appropriate uniform may be dismissed from the class/rotation and the incident will be counted as a class absence.

Sweatshirts approved by the program which include the program patch and the patch for the student's current level of certification can be worn over the class uniform. However, no apparel representing any EMS Agency shall be worn in any class session, the preceptorship, or hospital rotations. Appropriate outerwear or lab coat may be worn over the uniform in approved preceptorship or clinical settings. Hats of any kind shall not be part of the class uniform. Failure to comply with the uniform policy constitutes a breach of the student learning contract and may result in dismissal from the program.

Body art of any type must be covered at all times when participating in classroom, lab sessions, clinical rotations, or preceptorship ride rotations. If the artwork extends beyond the uniform it may be covered using an appropriate undergarment (i.e. long sleeve tee shirt). Uniform shirts must be tucked in at all times.
